- Data Structures & Algorithms
- Operating Systems
- CSS
- React
- HTML5
- JavaScript
- Web Development

## PROJECTS

**Ping-Up: A Social media Platform** [↗](#) | [MERN Stack Used](#)

08 2025

- Developed a clean, modern social media interface focused on seamless user experience. Implemented core features like posts, comments, and profiles with smooth interactivity. Ensured full responsiveness and high performance across all devices. Built with scalable architecture to handle real-time user engagement efficiently..
- [Live site here](#)

**QuickStay** [↗](#) | [MERN Stack Used](#)

10 2025

- Designed a streamlined system for room booking, check-in, check-out, and guest management. Implemented secure data handling for customer records, payments, and reservations. Developed an intuitive dashboard to manage staff, inventory, and daily hotel operations. Ensured responsive UI and smooth performance for both admin and user interactions..
- [Live site here](#)

**CampusQuery** [↗](#) | [MERN Stack Used](#)

10 2025

- Developed a RAG-based multilingual chatbot with an admin dashboard that updates answers instantly through drag-and-drop PDFs. Integrated the assistant into the college website and Telegram, enabling accurate, context-aware, 24/7 student query support.

## INTERNSHIP

**Apna Engineering Wallah** [↗](#)

11 2024 – 04 2025

*Full Stack Developer*

Remote India

- During my internship as a Full Stack Developer at a startup, I actively contributed to building and enhancing real-world web applications. Working in a fast-paced and collaborative environment strengthened my skills across both frontend and backend development. I also learned to balance academic commitments with industry-level tasks, which significantly improved my time management and multitasking abilities. Overall, this experience played a major role in sharpening my technical expertise, teamwork, and professional work ethic.

## TECHNICAL SKILLS

**Languages:** C, C++, JavaScript

**Developer Tools:** VS Code, Vercel, Postman, MongoDB compass

**Technologies/Frameworks:** GitHub, ReactJS, ExpressJS, NodeJS, Git, MongoDB

## EXTRACURRICULAR

**Nibble Computer Society** [↗](#)

04 2025 – 06 2027

*Web Developer*

College Technical Society

- Working as a Web Developer in a well-known technical society, contributing to workshops and helping juniors learn and grow.
